

Create IBM Cloud

Date	27 October 2022
Team ID	PNT2022TMID18967
Project Name	Project - IOT based safety gadget for child safety monitoring and notification
Maximum Marks	4 Marks

The screenshot displays the IBM Cloud Dashboard interface. At the top, there is a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's name (Keerthanaa Arthanani's...). Below the navigation bar, the main content area is titled "Dashboard" and includes a "Create resource" button. The dashboard is organized into several sections: "For you" (featuring a "Build" section with a selection of easy starter tutorials and services, and a "Get started with Watson Studio" section), "Get started with the CLI" (installing the IBM Cloud CLI), "Explore IBM Cloud Shell" (a command-driven approach for creating, developing, and deploying a web project), "Hosting with bare metal servers" (web hosting with IBM Cloud + free 20TB bandwidth), and "Get started with Containers & Kubernetes" (containers as a standard way to package apps). Below these sections, there are four more sections: "News" (WebSphere Application Server Support Restatement), "Recent support cases", "Planned maintenance", and "IBM Cloud status".
